## ARTICLE II

### FIRE RESCUE IMPACT FEES

**Section. 2.01. Legislative Findings Applicable to Fire Rescue Impact Fees.** The Board of County Commissioners of Sumter County, Florida, hereby finds, determines and declares that:

A. The County Fire Rescue System benefits all residents of the County, excluding residents of The Villages and, therefore, the Fire Rescue Impact Fees shall be imposed in all unincorporated areas of the County and within all municipalities that consent to the imposition of the Fire Rescue Impact Fees within their municipal boundaries and which participate in the County Fire Rescue System, excluding The Villages.

B. Development necessitated by the growth contemplated in the Comprehensive Plan and the Fire Rescue Impact Fee Study will require improvements and additions to the County Fire Rescue System to accommodate the new development generated by such growth and maintain the standards of service provided by the Fire Rescue System.

C. Future growth, as represented by Fire Rescue Impact Construction, should contribute its fair share to the cost of improvements and additions to the Fire Rescue System that are required to accommodate the impact generated by such growth.

D. The required improvements and additions to the Fire Rescue System needed to eliminate any deficiencies shall be financed by revenue sources of the County other than Fire Rescue Impact Fees.

E. Implementation of the Fire Rescue Impact Fees to require Fire Rescue Impact Construction within the County to contribute its fair share to the cost of required capital improvements is an integral and vital element of the regulatory plan of growth management of the County.

F. The Board of County Commissioners expressly finds that the improvements and additions to the Fire Rescue System to be funded by the Fire Rescue Impact Fee provide a benefit to all Fire Rescue Impact Construction within the County that is in excess of the actual Fire Rescue Impact Fees.

G. The purpose of this Article is to require payment of Fire Rescue Impact Fees by those who engage in Fire Rescue Impact Construction and to provide for the cost of capital improvements to the Fire Rescue System which are required to accommodate such growth. This Article shall not be construed to permit the collection of Fire Rescue Impact Fees in excess of the amount reasonably anticipated to offset the demand on the Fire Rescue System generated by such applicable Fire Rescue Impact Construction.

H. The imposition of a Fire Rescue Impact Fee is to provide a source of revenue to fund the construction or improvement of the Fire Rescue System necessitated by growth as delineated in the capital improvement element of the Comprehensive Plan.

**Section 2.02. Imposition.**

A. All Fire Rescue Impact Construction occurring within the County, both within the unincorporated area and within the municipal boundaries of any municipality that has consented to the imposition of Fire Rescue Impact Fees, excluding any Fire Rescue Impact Construction occurring within The Villages, shall pay the Fire Rescue Impact Fee, as established in this Article, at the time of issuance of a Building Permit for such Fire Rescue Impact Construction.

The Impact Fee Coordinator shall review the alternative calculations and make a determination within sixty (60) days of submittal as to whether such calculations comply with the requirements of this Section.

B. For purposes of any Alternative Fire Rescue Impact Fee calculation, the Fire Rescue Impact Construction shall be presumed to have the maximum impact on the Fire Rescue System for the appropriate Fire Rescue Impact Fee Land Use Category.

C. The Alternative Fire Rescue Impact Fee calculation shall be based on data, information or assumptions contained in this Article and the Fire Rescue Impact Fee Study, or independent sources, provided that:

1. The independent source is a generally accepted standard source of planning information and cost impact analysis performed pursuant to a generally accepted methodology of planning and cost impact analysis which is consistent with the Fire Rescue Impact Fee Study; or
2. The independent source is a local study supported by a data base adequate for the conclusions contained in such study performed pursuant to a generally accepted methodology of planning and cost impact analysis which is consistent with the Fire Rescue Impact Fee Study.

D. If the Impact Fee Coordinator determines that the data, information and assumptions utilized by the applicant comply with the requirements of this Section and that the calculation of the Alternative Fire Rescue Impact Fee was by a generally accepted methodology, then the Alternative Fire Rescue Impact Fee shall be paid in lieu of the fees adopted in Section 2.02.

E. If the Impact Fee Coordinator determines that the data, information and assumptions utilized by the applicant to compute an Alternative Fire Rescue Impact Fee do not comply with the requirements of this Section, then the Impact Fee Coordinator shall provide to the applicant by certified mail, return receipt requested, written notification of the rejection and the reasons therefore.

**Section 2.04. Payment.**

The Impact Fee Coordinator shall utilize as a standard in this determination the impact assumed in the most similar Fire Rescue Impact Fee Land Use Category or any other generally accepted standard source of planning and cost impact analysis.

B. In the event a Fire Rescue Impact Construction involves more than one Fire Rescue Impact Fee Land Use Category, the Impact Fee Coordinator shall calculate the Fire Rescue Impact Fees based upon the impact to be generated by each separate Fire Rescue Impact Fee Land Use Category included in the proposed Fire Rescue Impact Construction.

**ARTICLE III**  
**MISCELLANEOUS**

**Section 3.01. Changes in Size and Use.** A Fire Rescue Impact Fee shall be imposed and calculated for the alteration, expansion or replacement of a Building or the construction of an Accessory Building or Structure if the alteration, expansion or replacement of the Building or the construction of an Accessory Building or Structure results in a land use determined to generate greater impact than the present use under the applicable Fire Rescue Impact Fee rate schedules adopted herein. The Fire Rescue Impact Fee imposed shall be calculated as follows:

A. If the Fire Rescue Impact Fee is calculated on a per Dwelling Unit basis and not on the basis of square footage, the Fire Rescue Impact Fee imposed shall be the amount due under the applicable Impact Fee rate schedule for the Fire Rescue Impact Fee Land Use Category resulting from the alteration, expansion or replacement, less the Fire Rescue Impact Fee that would have been imposed under the applicable Fire Rescue Impact Fee rate for the Fire Rescue Impact Fee Land Use Category prior to the alteration, expansion or replacement.

B. If the Fire Rescue Impact Fee is calculated on the basis of square footage, in the event the square footage of a Building is increased, the Fire Rescue Impact Fee due for the increased square footage represented by the Fire Rescue Impact Construction shall be calculated by determining the Fire Rescue Impact Fee due according to the square footage resulting from the alteration, expansion or replacement, less the Fire Rescue Impact Fee that would have been imposed for the original square footage prior to the alteration, expansion or replacement.

C. If a Fire Rescue Impact Fee is imposed for an Accessory Building or Structure because such Accessory Building or Structure is determined to generate a greater impact than the present use, the fee shall be that applicable to the Fire Rescue Impact Fee Land Use Category for the primary Building.

### **Section 3.02. Developer Contribution Credits.**

A. In order to provide lands to meet the need for growth-related capital improvements created by Fire Rescue Impact Construction or to provide necessary capital equipment or facilities, a developer of Fire Rescue Impact Construction may dedicate suitable land, capital equipment or facilities to the County in lieu of paying the Fire Rescue Impact Fee imposed herein, as agreed to by the County.

B. Any land, capital equipment or facilities dedicated to the County in lieu of paying the Fire Rescue Impact Fees imposed herein must be acceptable to the County in terms of suitable size, dimension, soil type, topography, dimensions, location, accessibility and general character, type and specifications.

C. Subject to the terms and conditions of this Section, credit shall be granted against the Fire Rescue Impact Fees imposed herein for the donation of land, capital equipment or facilities that is required pursuant to a development order or permit or made voluntarily in connection with Fire Rescue Impact Construction. Such donations, equipment or facilities shall be subject to the approval and acceptance of the Impact Fee Coordinator. No credit shall be given for the donation of land, capital equipment or construction of facilities unless such property is conveyed in fee simple to the County without consideration.

D. Prior to issuance of a Building Permit, the applicant shall submit a proposed plan for donations or contributions to the Impact Fee Coordinator. The proposed plan shall include:

1. a designation of the Fire Rescue Impact Construction for which the plan is being submitted;
2. a legal description of any land proposed to be donated and a written appraisal prepared in conformity with Subsection G of this section;

3. a list of the contemplated contributions to the County and an estimate of the proposed construction costs certified by a professional architect or engineer or an estimate of the proposed value of a proposed donation of capital equipment; and
4. a proposed time schedule for completion of the proposed plan.

E. Within sixty (60) days after receipt, the Impact Fee Coordinator shall approve or deny the proposed plan in accordance with Subsection F of this section and, if approved, establish the amount of credit in accordance with Subsection G of this section.

F. In reviewing the proposed plan, the Impact Fee Coordinator shall determine:

1. if such proposed plan is in conformity with contemplated improvements and additions to the Fire Rescue System;
2. if the proposed donation of land or capital equipment and construction by the applicant is consistent with the public interest; and
3. if the proposed time schedule is consistent with the capital improvement program for the County.

G. The amount of developer contribution credit shall be determined as follows:

1. The value of donated land shall be based upon a written appraisal of fair market value as determined by an M.A.I. Appraiser who was selected and paid for by the applicant, and who used generally accepted appraisal techniques. If the appraisal does not conform to the requirements of this Section and the applicable administrative regulations, the appraisal shall be corrected and resubmitted. In the event the Impact Fee Coordinator accepts the methodology of the appraisal but disagrees with the appraised value, he may engage another M.A.I. Appraiser at the County's expense

and the value shall be an amount equal to the average of the two appraisals. If either party does not accept the average of the two appraisals, a third appraisal shall be obtained, with the cost of said third appraisal being shared equally by the County and the owner or applicant. The third appraiser shall be selected by the first two appraisers and the third appraisal shall be binding on the parties.

2. The value of the construction of an improvement or the value of donated capital equipment shall be based upon the actual cost of construction or acquisition of said improvement or capital equipment as certified by a professional architect or engineer or as shown by a manufacturer's or supplier's invoice. However, as to the construction of improvements, in no event shall any credit be granted in excess of the estimated construction costs provided by a professional architect or engineer and approved by the County unless the construction project is competitively bid, in which case, the credit shall be limited to the actual cost of construction. The cost of professional services shall be competitively bid in accordance with section 287.055, Florida Statutes, in order to be eligible for impact fee credits; and
3. The land donations, construction and capital equipment contributions shall only provide improvements or additions required to accommodate growth.

H. If a proposed plan is approved for credit by the Impact Fee Coordinator, the applicant or owner and the County shall enter into a credit agreement which shall provide for the timing of the action to be taken by the applicant and the obligations and responsibilities of the applicant, including, but not limited to:

1. The timing of actions to be taken by the applicant and the obligations and responsibilities of the applicant, including, but not limited to, the construction standards and requirements to be complied with;
2. The obligations and responsibilities of the Board of County Commissioners, including but not limited to inspection of the project; and
3. The amount of the credit as determined in accordance with Subsection G of this section.

I. A credit for the donation of land shall be granted at such time as the property which is the subject of the donation has been conveyed to and accepted by the County. A credit for the construction of an improvement or donation of capital equipment shall be granted at such time as the construction is completed, approved and accepted by the County or the time the capital equipment is approved and accepted by the County. The administration of said contribution credits shall be the responsibility of the Impact Fee Coordinator.

J. Any applicant or owner who submits a proposed plan pursuant to this section and desires the immediate issuance of a Building Permit prior to approval of the proposed plan shall pay the applicable Fire Rescue Impact Fee as provided herein. Any difference between the amount paid and the amount due, should the Impact Fee Coordinator approve and accept the proposed plan, shall be refunded to the applicant or owner.

K. Credits provided pursuant to this Section 3.02 shall not be transferable from one Impact Construction to another.

**Section 3.03. Remedial Collection Methods.** In the event the Fire Rescue Impact Fees are not paid prior to the issuance of a Building Permit for the affected Fire Rescue Impact Construction, such fees shall be collected at the issuance of a Certificate of Occupancy or by any other method which is authorized by law, unless otherwise exempted pursuant to this Ordinance.

**Section 3.04. Exemptions.** The following shall be exempted from payment of the Impact Fees:

A. Alterations or expansion of an existing Dwelling Unit where no additional Dwelling Units are created.

B. The replacement or construction of Accessory Buildings or Structures which will not create an additional impact on the Fire Rescue System.

C. The replacement of a Building or Dwelling Unit where no additional Dwelling Units or square footage are created and where the existing and replacement Buildings or Dwelling Units are located on the same lot. A Certificate of Occupancy must have been issued for such replacement Buildings or Dwelling Units within five (5) years of the date the previous Building or Dwelling Unit was previously occupied, otherwise no exemption shall be granted.

2. Denial of an Alternative Fire Rescue Impact Fee.
3. Denial of an exemption pursuant to Section 3.04.

Such hearing shall be held within thirty (30) days of the date the request for hearing was filed.

F. Such hearing shall be conducted in a manner designed to obtain all information and evidence relevant to the requested hearing.
